Confirming telephone conversation, Col. White advised me today regarding [REDACTED] that we should separate these two situations, and deal with the Commo ceiling matter separately from the ceiling needs, as shown in the memo of 8 October 1954, signed by [REDACTED]. The DD/A objects to taking ceiling slots properly allocated to cover the Commo situation for an entirely different purpose.

MEMORANDUM FOR: Chief, Management Staff

1. We will not protest a decision to reduce the Clandestine Services staff personnel ceiling by eight positions if this is considered essential by the DD/A.

2. We do not, however, concur in this action and feel that if such action is taken we will be being penalized to the extent of 13 ceiling positions to which we are actually entitled rather than only five, which represents the current situation.
